Amrut Nagar, Mumbra, Thane, Maharashtra 400612

SUMMARY

An ERPNext Developer with experience in ERP and web application development, skilled in the Frappe Framework, ERPNext, and Python, dedicated to delivering meaningful impact through scalable solutions.

EXPERIENCE

Software Developer

Castlecraft

Aug 2024 — Current

- Collaborated on implementing scalable solutions to enhance application performance and maintainability.
- Contributed to migrating applications from older versions of the Frappe Framework to newer releases, ensuring compatibility and smooth transitions.
- Developed and integrated a custom frontend using Angular with a Frappe Framework backend.
- Built and deployed Frappe sites utilizing Docker containerization to ensure scalable and consistent environments.
- Optimized report generation and data retrieval processes, significantly reducing report load times and improving user experience.

Frontend Web Developer

TCR Innovation

Mar 2024 — May 2024

- Developed and maintained user-facing features using Angular.
- Integrated frontend components with backend APIs to deliver seamless user experiences.

EDUCATION

BCA

Dr. C.V. Raman University, India

Jun 2021 — Jun 2024

- Graduated with **First Division with Honors**, achieving a **CGPA of 8.5**.
